HOSPITALITY RUBBER FLOORING SOLUTIONS

2025

RELIANT RUBBER ENGINEERS LIMITED

ABOUT US

Founded in 1986, Reliant initially specialised in repairing and refurbishing rubber-coated rollers for the industrial, printing, and food sectors. Over the years, we've expanded our offerings to include a wide range of polymers, serving global clients. This growth has led us into new markets, including steam traction engine wheel re-covering, moulded products, foam, cork, rubber gaskets, PVC sheeting, rubber matting and flooring, and ceramic lagging coatings for critical applications

MISSION

"Providing innovative, eco-friendly rubber flooring and engineering solutions focused on safety, durability, and affordability."

We deliver high-quality, sustainable products made from natural and recycled materials. We offer customised solutions that meet clients' needs while ensuring long-lasting performance and environmental responsibility.

VISION

To be a leader in innovative rubber solutions, setting the standard for sustainability, durability, and safety across industries while driving client success.

VALUES

- Sustainability: Using eco-friendly materials to minimise our environmental impact.
- Durability: Offering long-lasting, reliable products.
- Affordability: Delivering high-quality solutions at competitive prices.
- Customisation: Tailoring services to meet unique client needs.
- Safety: Our products prioritise safety, providing secure and reliable solutions across all industries.

GIVE YOUR VENUE A FRESH LOOK WITH RELIANT RUBBER!

Reliant Rubber offers a range of high-quality rubber products designed to enhance comfort, durability, and style in your venue. Whether you're upgrading outdoor areas or adding functional solutions indoors, our products are built to withstand the demands of the hospitality industry while ensuring long-lasting performance.

RECEPTION AREA

Clean, dry, and comfortable reception floors play a key role. Reliant Rubber offers rubber flooring solutions to help hotels maintain clean, safe, and comfortable spaces. Professional anti-slip flooring enhances comfort and, importantly, reduces the risk of slips, trips, and falls.

LUGGAGE STORAGE

Luggage storage is vital for hotels, enhancing guest experience by accommodating various schedules. Rubber flooring in these areas offers several benefits. Its durability withstands heavy foot traffic, while shock absorption protects luggage and flooring. Reliant Rubber's non-slip rubber flooring adds safety and is easy to clean, maintaining hygiene. Additionally, its sound-absorbing properties help reduce noise, contributing to a positive guest experience.

GYM FACILITIES

Our Gym Mats combine style and durability to meet the demands of hospitality fitness spaces. Ideal for hotel gyms and wellness areas, these mats absorb shock, reduce impact damage, and provide exceptional anti-slip traction for a safe and comfortable workout experience. Easy to install and maintain, they protect floors from abrasion and vibration, enhancing the quality and appeal of your fitness facilities.

EDGES FOR CHECKER AND SOLID TOP GYM MAT

Size

8cm x 89.5cm x 14mm

Material Composition

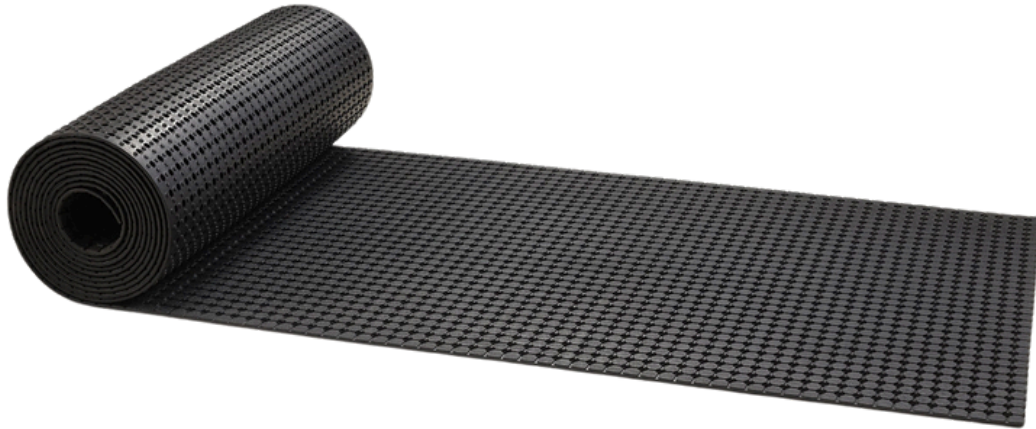

Natural and Recycle Rubber

When installing Checker or Solid Top Gym Mats that don't extend to the wall, it's important to use the special edging strip for a safe and finished look. This strip creates a sloped, trip-resistant edge, ensuring a professional appearance for your gym. It clips easily into place for quick installation.

SWIMMING POOL & SPA

Revitalise your venue's poolside area with our robust, slip-resistant rubber flooring. It is perfectly designed for wet conditions and provides outstanding traction to reduce slip hazards and enhance safety. The cushioned surface ensures comfort, while the weather-resistant material offers long-lasting durability. Easy to clean and maintain, this flooring is an excellent choice for creating a safe, stylish, and sophisticated poolside that will impress your guests.

GOLF COURSES

Transform your golf course with our durable, slip-resistant rubber flooring. It is designed to withstand high-traffic areas and enhances safety and traction, reducing the risk of slips and falls. The weather-resistant material ensures long-lasting durability, while the cushioned surface offers comfort for both players and staff. Easy to maintain and clean, this flooring is the perfect solution for creating a safe, stylish, and functional environment across your course.
