RESIDENTIAL RUBBER FLOORING SOLUTIONS

RELIANT RUBBER ENGINEERS LIMITED

2025

ABOUT US

Founded in 1986, Reliant initially specialised in repairing and refurbishing rubber-coated rollers for the industrial, printing, and food sectors. Over the years, we've expanded our offerings to include a wide range of polymers, serving global clients. This growth has led us into new markets, including steam traction engine wheel re-covering, moulded products, foam, cork, rubber gaskets, PVC sheeting, rubber matting and flooring, and ceramic lagging coatings for critical applications

MISSION

"Providing innovative, eco-friendly rubber flooring and engineering solutions focused on safety, durability, and affordability."

We deliver high-quality, sustainable products made from natural and recycled materials. We offer customised solutions that meet clients' needs while ensuring long-lasting performance and environmental responsibility.

VISION

To be a leader in innovative rubber solutions, setting the standard for sustainability, durability, and safety across industries while driving client success.

VALUES

- Sustainability: Using eco-friendly materials to minimise our environmental impact.
- Durability: Offering long-lasting, reliable products.
- Affordability: Delivering high-quality solutions at competitive prices.
- Customisation: Tailoring services to meet unique client needs.
- Safety: Our products prioritise safety, providing secure and reliable solutions across all industries.

TRANSFORM YOUR HOME WITH RELIANT RUBBER

At Reliant Rubber, we provide various high-quality rubber products designed to enhance comfort, durability, and style in your home. Whether you're upgrading outdoor spaces or implementing functional solutions indoors, our residential collection is engineered for longevity.

EDGES FOR CHECKER AND SOLID TOP GYM MAT

Size

8cm x 89.5cm x 14mm

Material Composition

Natural and Recycle Rubber

When installing Checker or Solid Top Gym Mats that don't extend to the wall, it's important to use the special edging strip for a safe and finished look. This strip creates a sloped, trip-resistant edge, ensuring a professional appearance for your gym. It clips easily into place for quick installation.

PET MATS

The Pet Mat is an antimicrobial feeding station designed to prevent the growth of harmful bacteria. It is waterproof, stain-resistant, and easy to clean. The mat also provides comfort for pets and protects floors from spills.
